Hydraulic corner notchers

Fixed 90° cutting | 250 × 250 mm notch | 415 V three-phase

Representative machine and worktable detail

Product introduction

Cut square corner notches in sheet metal before folding trays, panels, cabinets and enclosures. The fixed 90° blade arrangement suits repeat work in general fabrication, ductwork and vehicle bodywork. Positioning rules, guides and scales help locate each sheet consistently.

The 4 mm and 6 mm models use a rigid welded frame and hydraulic drive for steady cutting in a compact footprint. Single-cycle and step operation give the operator control over the cutting stroke. The upper blade stroke can be adjusted to suit the job, and a fixed guard is fitted at the cutting area.

All capacities quoted are for mild steel

Thickness ratings are based on 450 N/mm² tensile strength. Ask us to confirm capacity for higher-strength grades, stainless steel or other materials.

Specifications and prices

Fixed-angle hydraulic corner notchers

Capacity / specification	4 mm	6 mm	8 mm
Machine price ex VAT	**£4,628.33**	**£5,625.00**	**£7,291.67**
Machine price inc VAT	**£5,554.00**	**£6,750.00**	**£8,750.00**
Motor power	4 kW	4 kW	To confirm
Strokes/min at full cutting length	40	36	To confirm
Worktable (mm)	810 × 700	810 × 750	To confirm
Worktable height (mm)	950	950	To confirm
Dimensions L × W × H (mm)	934 × 760 × 1130	934 × 810 × 1135	To confirm
Machine weight	700 kg	820 kg	To confirm
Hydraulic oil tank	35 L	35 L	To confirm

All three options have a 250 × 250 mm notch capacity and require a 415 V three-phase supply. Detailed 8 mm specifications are subject to confirmation.

Payment terms

A 30% deposit is due with order and the balance is due before delivery or collection.

Delivery and warranty

Prices exclude delivery. Availability, lead time and supplied equipment are subject to confirmation. New machines include a 24-month parts and labour warranty and lifetime telephone and email technical support.

Conditions of sale

Carter Machinery Co Ltd’s Terms and Conditions of Sale apply.

For a delivered price, please send your preferred capacity and delivery postcode.
